

Excellence at SU Thrives

Precy Garrido shares good news about Silliman University.

Results of Government Licensure Exams in 2014 demonstrates that Silliman University excels in multiple disciplines of academia.

Below is a press release on how Silliman University graduates compared to those from all other institutions of higher learning in the Philippines.

The topic will surely be of interest as the Silliman alumni and friends gather for a fund raising dinner on September 22nd in the Mira Mesa community of San Diego.

In a celebratory spirit, we can all share in the knowledge that current graduates continue to uphold the same high standards of academic excellence that was set by those that attended the university “beside the sea” before us and which we too had to uphold so very long ago.

We offer our congratulations to all recent graduates and a hearty thumbs up to all the SU dedicated faculty and staff \for work well done !!!
